Jarrold Clifford (Olympia) Tveter
997 Bradford Street
Pomona, CA 91767

Dear Ms. Tveter,

I am writing to inform you that the University has engaged in further consultation with The California State University Office of General Counsel concerning your request to change your name in your academic records from Jared Clifford Tveter to Olympia Tveter. While the University understands and sympathizes with your desire to do so, the University maintains its position that a name change cannot be processed for you in the University records without proper supporting documentation.

California has a statutory procedure to formally change one's name. (California Code of Civil Procedure section 1275 et seq.) You still have the option to produce proper supporting documentation (e.g., court order, driver's license, Social Security card with the new name) to effectuate a name change in the University's records. When the University receives this documentation, the change will be made to your academic records.

Best wishes for success during your remaining time at Cal Poly Pomona..

Sincerely,

A handwritten signature in black ink, appearing to read 'Kathleen Street', written over a white background.
